

YOUR PATIENTS RELY ON YOU.
YOU CAN RELY ON US.

Vivid[™] S70N with Dimension

ULTRA EDITION

TODAY'S CHALLENGES

Increasing demand, coupled with limited cardiology staff, results in additional workload challenges for the entire medical community.

 **17 MILLION**

people died from CVDs in 2019¹

 **1 in 4**

cardiologists state they are burned out²

 **>10%**

increase in Ischemic Heart Disease (IHD) alone by 2030³

 **20%**

of sonographers are leaving the profession or taking premature retirement⁴

 **~108 MILLION**

annual echo exams performed globally⁵

 **x2**

shortage of health workers is **set to double**⁶

YOUR PATIENTS RELY ON YOU. YOU CAN RELY ON US.

Patient care isn't just a job for you. It's a calling. A mission.

Of late, that mission has changed. Increased workloads, fewer skilled staff and increased demands on your time, resources and expertise are now the norm.

Getting the right images under this pressure is challenging.

But this isn't just a job for you and you have no intention of sacrificing quality in your practice when so much is at stake.

The Vivid S70N Dimension cardiovascular ultrasound system has been further developed to meet today's challenges. To allow more diagnosis confidence and better workflows, Vivid S70N Dimension takes a leap forward in image quality with improved color flow, HD live capabilities and full 4D capabilities as well as further AI-enabled automation.

Because your patients rely on you, you can rely on us.

PIONEERING INNOVATION

YOUR EXPERTISE. OUR INNOVATIONS.

Building on a history of advancements of cardiac patient care, GE has been a true pioneer introducing breakthrough technologies, such as Color Doppler systems (1986) and 2D and AFI Speckle Tracking (2005).

Discover the latest leading innovative technologies that continue to push the technical capabilities of the Vivid Ultra Edition* system for the benefit of you and your patient.

VIVID S70N DIMENSION ULTRA EDITION*

Designed from the echo to the cath lab

Vivid S70N Dimension provides you with uncompromised image quality, advanced visualization capabilities and easy measurements – while helping reduce tedious tasks.

UPGRADE NOW!

LATEST INNOVATIONS

Strain measurements in just 15 seconds (on average) - with **Easy AFI LV**.

In 15 seconds
(on average)⁷

Ejection Fraction and Automatic Region of Interest definition with only 1 click – with **Easy AutoEF³**.

Only 1 Click

Full 4D capabilities in transthoracic, transesophageal, and even intracardiac** echo.

4D visualization

MODERN ERGONOMICS

Adjustable to each operator and each sitting position

- Articulating monitor arm
- Single-hand push for up/down and left-right adjustment

Excellent operator interface

- 22" adjustable monitor
- 12" LCD touch screen
- Alphanumeric keyboard
- Silent system (average 31dB noise level)

Compact & easy to maneuver

- Only 73Kg/ 161lbs
- With ergonomic, easy to push handle
- Battery powered "standby" function, up and running within few seconds

YOUR VISION. OUR SUPERB IMAGES.

The Vivid system was purpose-built to deliver the highest quality images possible so you can see clearly and diagnose with confidence.

cSound innovation

The key innovation of cSound is its extraordinary processing capacity where ultrasound channel data is received and temporarily stored in 'Local Big Data' memory before the image reconstruction is performed.

This enables the application of advanced beamformer algorithms, such as True Confocal Imaging (TCI) without the limitation of focal zones or sacrifice of frame rate and spatial resolution.

The combined effect of cSound and TCI compared to traditional (Vivid E9) premium beamforming.

Color Flow - Even better image quality!

10-15% of echo exams result in sub-optimal images⁹

LATEST INNOVATIONS

HDlive™

Enhanced 4D tissue render visualization

Enabled by cSound, HDLive, an advanced visualization tool that simulates light propagation and scattering through tissue, virtually illuminates 4D structures varying the source of light at will, making the understanding of complex 4D anatomy easier. It is available both in live and replay modes and in multiple color maps.

Full 4D capabilities

In transthoracic, transesophageal and even intracardiac echo

Vivid S70N Dimension Ultra Edition introduces the latest AI-based technology to help reduce tedious tasks and improve workflow efficiency.

AI Auto Measure 2D

With the power of AI, a full set of reproducible measurements will instantly appear on the screen.”

80% Less clicks¹⁰

Cardiac Auto Doppler with AI Auto Measure Spectrum Recognition

With the power of AI, a wide range of Doppler measurements can be completed with 2 clicks: Freeze – Measure. A Doppler trace and full set of associated measurements will instantly appear on the screen.

Up to 93% fewer keystrokes¹¹

LATEST INNOVATIONS

Easy AutoEF

Our AI-based Auto ROI detection algorithm allows users to complete ejection fraction, with no manual interaction apart from initiating the tool and approving the results.

EF results in just 1 click

Easy AFI LV with View Recognition

Our AI-based global and segmental strain measurements require no manual interaction apart from initiating the tool and approving the results. Additionally, you will be able to view simultaneously EF measurements.

EF and strain results in 15 seconds (on average)

“The new Easy AFI LV expedites strain measurements and simultaneously provides an automated LV ejection fraction measurement.

Once required apical views are acquired, GE’s algorithm provides incredibly robust strain measurements!

–Prof. Erwan Donal
Cardiologist
University Hospital Center, Rennes,
France

BEYOND ADULT ECHOLAB.

Demand for a complete ultrasound system - that is designed for both pediatric and adult patients and scan go from the echoLab to the cath lab - is growing. Be versatile with Vivid S70N Dimension.

Pediatric imaging

Visualize small anatomies with speed, clarity and confidence thanks to Vivid S70N Dimension Ultra Edition's superb high-resolution imaging and dedicated pediatric probes.

HD Color for Interventional

HD Color is a 4D color flow rendering technique for volumetric flow perception and semi-transparent visualization of origin and size of high velocity jet.

4D Markers for Interventional

Make annotations that are viewable from all angles on 4D ultrasound volume data sets and their 2D views, facilitating communication in the echo lab, cath lab and OR.

BEYOND CARDIOLOGY.

The demand for multi-purpose, cost efficient ultrasound systems with uncompromised image quality is growing. Your Vivid S70N Dimension Ultra Edition will exceed your expectations across a wide range of applications.

Vascular quantification

Develop fast and complete quantitative assessment of vascular anatomies, such as the Intima Media Thickness, with dedicated vascular measurement tools.

Abdominal diagnosis

Visualize tissues and flow patterns with greater details thanks to Vivid S70N Dimension Ultra Edition's high-resolution imaging.

YOUR NEEDS. OUR DESIGN.

More than ever, you need a powerful ultrasound system with advanced easy-to-use tools, that also is easy to maneuver. Vivid S70N Dimension has a familiar, yet modern and efficient design that is the lightest in its category. and is always ready with an “instant-on” transportation mode.

Modern Ergonomics

Long lasting mobility

- Battery powered “stand-by” function, up and running within few seconds

Adjustable to each operator and each sitting position

- Articulating monitor arm
- Single-hand push for up/down and left-right adjustment

Excellent operator interface

- 22” adjustable monitor
- 12” LCD touch screen
- Alphanumeric keyboard
- Silent system (average 31dB noise level)

Compact & Easy to Maneuver

- Only 73Kg/ 161lbs
- With ergonomic, easy to push handle

Only 73 kg

Silent System

Stand-by Function

22” monitor

YOUR FLEET. OUR SOLUTION.

Patient care doesn't end when the exam is over. Upgrade to EchoPAC™ to optimize your patient time and your post-processing time.

FAST WORKFLOW

- Fully integrated workflow with the EchoPAC Plug-in, DICOM® SR transfers to reporting systems, accelerated data transfers in clinical and research operations
- Featuring Open4D to assess & quantify 3D volumes from multivendor equipment fleets

For 3-Dimensional system vendor-agnostic analysis

EchoPAC exists as **EchoPAC Software Only** and **EchoPAC Plug-in**

EchoPAC Plug-in is available for:

- GE Healthcare Centricity™ Cardio Enterprise with Intelligent Reporting (IR)
- GE Healthcare ViewPoint™ 6 with EchoPAC Suite¹³
- As a Plug-in to third party PACS.

STATE-OF-THE-ART ACCURACY

Full access to all Vivid scanner tools:

- From the most used AI-Powered ones on routine measurements: Easy AFI LV, Easy AutoEF and Auto Doppler Spectrum Recognition
- To the most advanced ones: MyoCardial Work is a unique tool using less load dependent parameters than strain alone

Interested in MyoCardial Work?

Learn more on the publicly available Webinar on the Vivid Club website

COMFORTABLE EXPERIENCE

- Familiar Vivid user interface, faster staff ramp-up
- Analyzing and reporting from the ergonomic comfort of a workstation
- More focus on patient at acquisition

Maximize your entire fleet return on investment

- Transcend your machine performance: regardless of vendor, regardless of machine age, get all the latest Vivid tools
- Save time: get EchoPAC to free-up scanner time and perform your daily analysis off-line including LV quantifications doppler and function assessment

“I am amazed by the measurements you can perform on EchoPAC after the patient has left!”

- **Dr. Lamin E.S. Jaiteh**
 Consultant Cardiologist & Lecturer in Cardiology
 Department of Internal Medicine
 Edward Francis Small Teaching Hospital/School of Medicine &
 Allied Health Sciences, University of the Gambia

YOUR SKILLS. OUR SUPPORT.

In the core echo lab and even beyond cardiology, smart applications support your know-how.

Operational Performance

About GE Healthcare:

GE Healthcare is the \$18 billion healthcare business of GE (NYSE: GE). As a leading global medical technology and digital solutions innovator, GE Healthcare enables clinicians to make faster, more informed decisions through intelligent devices, data analytics, applications and services, supported by its Edison intelligence platform. With over 100 years of healthcare industry experience and around 50,000 employees globally, the company operates at the center of an ecosystem working toward precision health, digitizing healthcare, helping drive productivity and improve outcomes for patients, providers, health systems and researchers around the world.

Follow us on Facebook, LinkedIn, Twitter, and Insights for the latest news, or visit our website www.gehealthcare.com for more information.
