

# Probe Care Solutions

Your probe care solutions partner, from repair to replacement.

## At GE HealthCare, we can provide you a solution for over 150 probes.

- ✓ Maximise your clinical uptime with delivery of loaners on selected models
- ✓ Minimise cost with free probe diagnosis, free loaner and competitive repair/replacement prices
- ✓ Save time with our localised diagnostic and repair process
- ✓ Gain peace of mind with all repairs and replacements qualified by our Quality Management System

## Repair Solution

With our repair offering, you get a cost-effective solution, enjoying the GE HealthCare quality and customer care you deserve:

- ✓ GE HealthCare manufactures over 150,000 probes a year
- ✓ GE HealthCare uses certified tests and processes to ensure manufacturer specifications are maintained - ISO 13485, ISO 9001
- ✓ Probe experts trained to meet your probe care requirements

## Replacement Solution

As well as our extensive probe repair capability, we have an extensive range of new and refurbished probes, tested according to our QMS, to meet your specific needs.
